- **Soft, sleek design to complement the bevelled and chamfered appearance of modern windows**
- **90° stop**
- **Key retention device built into cylinder**
- **Easily converted to non-locking**
- **Wide range of pin lengths**
- **Available in white, gold or brass finish**
- **Offset version also available**

# CONTOURA ESPAG HANDLE

The Contoura is a push to operate, key to deadlock espagnolette handle which has been designed to complement today's modern chamfered window styles.

The zinc diecast body has a large locking block to eliminate "sag" in extended use and also incorporates a 90° stop.

A key retention device is built into the cylinder to avoid the possibility of keys falling out when utilised on top hung windows.

The handle rose is equipped with spigots for improved location. Handle is supplied with a push-in screw cover for concealed fixing.

Supplied with black cylinder & covers as standard. Keys included in box quantities of 10.
